

Autumn 2015

Dear Friends and Supporters of Serena Saskatchewan,

We've all heard the phrase that 'time marches on', which is a call for us to continually reflect on the 'culture war' at hand and to make a response. The battlefield lines are drawn between the culture of life and the culture of death.

Promoting NFP is one of the pillars of the culture of life because it not only respects natural law and moral law, it also fortifies marital love to strengthen and enrich family life in countless ways. Serena's promotion of Natural Family Planning provides guidance and understanding to couples and young adults in the area of sexuality and marriage. Serena is on the cutting edge of providing this knowledge to many couples and young adults who are desperately searching for answers to all the wounds the contraceptive culture has inflicted on our society.

We are meeting this challenge through advertising, networking, training new teacher couples, and also by joining the internet with our launch of Serena Saskatchewan's website to help promote NFP in our tech savvy world. To sustain all these activities we really need your financial support. Please consider making a donation.

Another huge blessing would be to have a foundation of ten benefactors who could offer a thousand dollars or more annually to help with sustained funding. If you could become a benefactor, or make a referral, we would be most grateful.

Sincerely,

Jim & Maureen McLane  
Serena Saskatchewan President Couple
